

Libra Full Moon ...

I release the superficial exchange
And clear a space for the authentic
To want to be challenged - to expand one's range
Some may consider eccentric

But I FEEL the connection ... to the whole
As I CAME with this intuitive knowing
And when I am rooted in that connection
Others say I look like I'm glowing

I simply tell them - that's my INNER JOY
Something - no "outer" thing - can ever destroy
It's what radiates from your being when you know who you are
Independent & free
Now in a position to collaborate, share and help others connect
To what THEY were born to be

I call on the Libra Full Moon to release me from this Lunacy
I want Truth in my exchanges and reciprocity
I release imbalanced relationships with any toxic souls
I embrace "remote" work with them - and get back to my goals
I draw down the Light-filled power of the Moon - to nourish and protect
I set healthy boundaries so I can retain my peace - and self-respect

I focus my Light when & where it's been invited
Working with others toward a culture who's - delighted
To contribute, exchange and co-create
To applaud and appreciate
Ourselves and each other
Knowing ALL souls as one - as my sister or my brother
